

PROCEDURES for a TILE MURAL

HOW TO BE PREPARED FOR A CLAY FOR KIDS POTTERY CLASS

1. The ideal location for our program is a room with a sink located on the main floor so we can use our dollies for transporting numerous heavy items. When possible we would appreciate using one room for all classes. Possibly the art/ science room.
2. Kindly have a tables or desks ready with paper towels and at least 250 ml water. If using tables it's best to cover with paper which can be used for several classes.
3. Each student will need a nametag, PAPER TOWELS, individual or shared small containers of water and 2 double-pointed, round toothpicks.
4. During a 10-15 minute demonstration, the instructor will talk to the students about clay and demonstrate the making of the tile.
5. Initial instructions are then given for the students to work at their desks on their hand-built projects, additional instructions being given as necessary.
6. Adult helpers are required for kindergarten, 1 for each 5 children. 1 or 2 adults are always welcomed for grades 1-3.

Thank you,

Clay for Kids Edmonton
